Learn My Lesson - Rizzle Kicks

Standard Tuning - (E A D G B E)

This song is just the same three chords repeated throughout the whole song. To create the best sound possible, listen to the rhythm in the song and try and imitate it.

Capo 6th.

Intro: **A** x2 **D**, **D7**

**A**

No, I don't think I could confess to sin and I scratch my mind, cause the

**D**

**D7**

question is when will I learn my lesson, when will I learn my lesson.

**A**

I just stride for the best of things, and I scratch my mind, cause the

**D**

**D7**

question is (what's the question?) when will I learn my lesson, when will I

learn my lesson.

**A**

I never learn the mental person's spendings earning nightly

complains when the rent is burning pockets in his nice jeans

**D**

blimey the one who's quick to mock a person's styley

**D7**

or didn't stop to clock the person standing right behind me

**A**

yeah, very quick to hit the snooze on his alarm clock

or thinks it's pretty stupid why he's booted from his last job

**D**

ticket guy will come to check your park spot (dickhead)

**D7**

or think to ticket you a minute after your charge stops.

And it goes like that for the rest of the song, nice and easy.

Peace out :)
