

**The Winters Months**  
**Rob Scallon**

So basically I made this because there is absolutely nothing on this song and I wanted to give it a try because I like the song and I've been trying to figure it out for a while. This isn't 100% correct and I know that but to anyone who comes across and wants to share what they have discovered please feel free.

Tuning: Drop D

**Chords:**

D: 000232 (Add the little flourish Rob does on the high E string by pulling off on the 5th fret w/ pinky finger)

Dmaj7: x00222

B/Dmaj7: x20222

Em6add9 (this one isn't a real Em and I'm not sure what else goes, but it's all I got): 222222

(For Em add a bass note change from 2 to 4, so play 222222 for 3 counts and 422222 for another 3 counts)

F#m: 007675

Em: x05453 (??) (Use bottom of pinky to fret 5 on the high E for the added note Rob adds)

Gmaj7: 554003 (Wrong but it sounds pretty enough)

Emadd9: 222002
