```
The acoustic guitar plays this capo 4 and plays the song with traditional key of
chords (G#, C#, Eb, Fm), but I m listing the song with the actual notes played.
Verse 1:
If everything I had was lost, If everything I had was gone
If everything I knew was suddenly a fraud, and all I had was you holding on
Would it all be the same, could I find beauty in the pain?
Would I sing Your praise, would I seek Your face?
Chorus:
I raise my voice loud and sing,
tell them all what you ve done for me
Even in my darkest days,
I m gonna sing Your praise
I raise my voice loud and sing,
tell them all what you ve done for me
Even in my darkest days, I m gonna sing Your praise
Verse 2:
Everywhere I look today, every common tree is ablaze
With the fire of God the maker of the stars, and the healer of my heart
Where would I be if you never gave me the eyes to see
   F
I praise you, oh I praise you
Chorus
Bridge:
Your grace is like an ocean crashing with hope
