

Nan?s Song

Robbie Williams

Intro: Eb Eb/F# Bb G# 2x

          Eb                  Eb/F#                  Bb                  Fm7                  G#  
You said when you'd die that you'd walk with me every day  
          Eb                  Eb/F#                  Bb                  Fm7                  G#  
Then I'd start to cry and say please don't talk that way  
          Eb                  Eb/F#                  Bb                  Fm7                  G#  
With a blink of an eye the lord came and asked you to meet  
          Eb                  Eb/Db                  Bb                  Fm7                  G#  
You went to a better place but he stole you away from me.  
          Eb Eb/F# Bb                  Fm7 G#  
And now she lives in heaven  
          Eb Eb/F# Bb                  Fm7  
But I know they let her out.  
                          G#  
To take care of me

Chorus:

G#                          Eb                          G#                          Eb  
There?s a strange kind of light, caressing me tonight.  
G#                          Eb                          C#                          C#/G                  Bb  
Pray silence my fear, she is near, bringing heaven down here.

Eb Eb/F# Bb G# 2x

          Eb                  Eb/F#                  Bb                  Fm7                  G#  
I miss your love, I miss your touch, but I'm feeling you every day.  
          Eb                  Eb/F#                  Bb                  Fm7                  G#  
And I can almost hear you say ?You've come a long way baby?.  
          Eb Eb/F# Bb                  Fm7 G#  
And now you live in heaven  
          Eb Eb/F# Bb                  Fm7  
But I know they let you out.  
                          G#  
To take care of me

Chorus:

G#                          Eb                          G#                          Eb  
There?s a strange kind of light, in my bedroom tonight.  
G#                          Eb                          C#                          C#/G                  Bb  
Pray silence my fear, she is near, bring your heaven down here.

Hm                          Bb                          Fm                  Gm - G  
You taught me kings and queens, while stroking my hair  
Hm                          Bb                  Fm                  Gm - G  
And in my darkest hour, I know you are there

Hm                      Bb                      Fm                      Gm - G  
kneeling down besides me, whispering my prayers.

Chorus:

G#                                      Eb                                      G#                                      Eb  
Yes, There's a strange kind of light, caressing me tonight.  
G#                                      Eb                                      C#                                      C#/G                                      Bb  
Pray silence my fear; she is near, bringing heaven down here.

G#                                      Eb                      G#                                      Eb  
The next time that we meet, I will bow at her feet.  
G#                                      Eb                                      C# - C#/G  
and say wasn't life sweet then we'll prepare,  
                                    Bb  
to take heaven down there
