

Revolution

Robbie Williams

Eb - C# - G# - F (2x)

Eb **C#**
Don't fight the feeling, relax

G#
Oh child the knots in your back

Cause you've been holding on

F **Eb**
I feel you when you're reaching out

C#
I'll talk you through memories

G#
Just keep breathing with me

It's time to hold my hand

F **Eb**
And walk into the revolution

C#
When there's no one to touch

G#
And you've been thinking too much

You only hurt yourself

F **Eb**
When it's all about retribution

C#
I see the pain in your face

G#

And praying rare for this space

It s time to lead you on

F **Cm**
C mon, it s a revolution

C#
When you can t keep on keeping on

G# **G**
And everything you lean upon is all but gone

Cm **F**
Everybody falls sometimes

Bb
But love shines on

Bb7
And on and on and
