Robbie Williams

E - D - A - F# (2x)

**E** **D**  
Don t fight the feeling, relax

**A**  
Oh child the knot s in your back

Cause you ve been holding on

**F#** **E**  
I feel you when you re reaching out

**D**  
I ll talk you through memories

**A**  
Just keep breathing with me

It s time to hold my hand

**F#** **E**  
And walk into the revolution

**D**  
When there s no one to touch

**A**  
And you ve been thinking too much

You only hurt yourself

**F#** **E**  
When it s all about retribution

**D**  
I see the pain in your face

**A**

And praying rare for this space

It s time to lead you on

**F#** **C#m**  
C mon, it s a revolution

**D**  
When you can t keep on keeping on

**A** **G#**  
And everything you lean upon is all but gone

**C#m** **F#**  
Everybody falls sometimes

**B**  
But love shines on

**B7**  
And on and on and
