Don t Be Afraid Of The Dark - Robert Cray

Please notice a few things... :)

If you want to play with original recording use capo on 1st fret or just play the whole song half-step higher (Bbm).

In chorus you can play the (G) chord like passing chord, it s not a mistake, but there is no actual G chord at that place in original recording, just some passing tones that may sound to you like one.

intro **Am**

Am

Dead of night, baby, we re finally alone
I ll pull down the shades if you unplug the phone
Put on some music, Marvin Gaye s real nice
Once we get settled I ll turn out the lights

G			Am
Don t be afraid of the dark,	don t be afraid of the dark		
D5	C5	(G)	Am
I ll be there to hold you,	don t be afraid of the dark		

It might be scary until your eyes adjust
Don t fear the shadows, me you can trust
I m at my best in a pitch-black room
Hold on tight, baby, you ll feel the power soon

chorus

I ll be there to hold you, don t be afraid of the dark

solo **G Am Dm7 Am Em7 Dm7 Am**

You might tremble, you might shake
Scream out loud, you may even break
I know which moods suit you right
You ll beg for more, you ll forget about the night

chorus (repeat)
