Verse:

**C Em F**  
When youâ€™re lost, in an old part of town,  
**C Em F**  
got no friends to carry you around,  
**C Em F**  
I can here you calling, in the dead of the night,  
**C Em F**  
behind a moon bounce, waiting for the light.

Prechorus:

**G Em**  
No oneâ€™s going to find you, if you ever get lost this time,  
**F**  
I never want to see you alone.

Verse:

I remember the old motel,  
you were tearing â€˜part the windows, tearing â€˜part yourself.  
I helped you, when you were in a bind,  
good love is hard to find.

Prechorus:

But no oneâ€™s going to find you, if you ever get lost this time, I never want  
to see you alone.

**C Em**  
Darkness be my friend tonight, darkness be my friend tonight,  
**F G**  
I never want to be alone, I never want to see her alone. x2

**C Em**
