A long time favorite of mine that deserves some recognition.

Try it on a winter night with a special someone listening to you play. :)

Capo 2

All chords relative to the capo.

Intro: **Em C G** (x4)

Em C G
It s a snow driftin night

Em C G

Because we ve got no place to go

(**G**) **Em**
The wind is howlin like Miles Davis gone insane

[solo over **Em / C / G** (x2)]

Your momma s got the kids

So you know they ll be okay

And it looks like she s gonna get to keep them now

Another two or three more days

The basement s full of wood so we re gonna stay warm
The kitchen s full of food so go on and let it storm

Cause I m not worried bout the weather
The weather s gonna do just what it wants
Oh, I m just glad to be together
Together all alone, together all alone

[slide solo over **Em / C / G** (x4)]

We can go to bed real early
We can stay in bed real late
We re gonna get down underneath all those covers, darlin
We re gonna hi-i-i-i-bernate

(**G**) **Em**
Turn off that television, unplug that telephone
G **C** **D**
We ll have a short vacation and stay right here at home

G **Em**
Pretend this Pabst Blue Ribbon is Dom Perignon
G **C** **D**
And pray that the snowplows never come

Cause I m not worried bout the weather
The weather s gonna do just what it wants
Oh, I m just glad to be together
Together all alone, together we re all alone
Together all alone, together we re all alone
