BE MINE - Robyn

---

Tabbed by: Simoom

I've listened to the acoustic version of the song and it's played on piano, my tabs are, therefor, most suitable for the piano. But if you play guitar, you can play the chords instead of the single notes.

The song is built of different parts that I'll describe below. I'll try to make it as simple as possible but if it look cryptic my advise is to listen to the song, then you'll probably understand better.

Intro: Part one x2

Verse 1: Part two

It's a good thing, tears never show in the pouring rain  
As if a good thing ever could make up for all the pain  
There'll be no last chance to promise to never mess it up again  
Just a sweet pain of watching your back as you walk  
As I'm watching you walk away

Bridge: Chords:

A# Cm G# A#

And now you're gone it's like an echo in my head  
Cm G# (A#)

And I remember every word you said

Verse 2: Part two

It's a cold thing you never know all the ways I tried

It's a hard thing faking a smile when I feel like I'm falling apart inside
