Don't you understand, every time you do you make me cry?

I stayed up late every lonely night

Waiting for you to call me

I used to think if I gave you time

Ooohh baby, you find a way to make it right

You're doing me wrong again and again

You say that you will, but you won't

no

Oh baby

You're making a mistake again, oh why?!!!

Don't you understand, every time you do you make me cry?

oh why

Don't explain and don't ask me why

Ooh baby please stop crying

We've been through this one too many times

So baby don't you put me there again

Stick
