little spring you know that when our world ends  
G /F# Em  
the next one will begin  
G /F# Em D  
neon eyes again, little spring

D Em  
i think you always held the key  
Em D  
i jumped the fence, i had to steal it  
D Em  
in your holy house, i cleaned the floor  
Em D  
left a note spelled out forever  
D Em  
you gave me a girl, i gave you a boy  
Em D  
yeah we were faster than camaros  
D G /F# D  
side by side on down the highway line  
G /F# D D  
engines hum familiar songs

Bm Em  
i loosened up my tourniquet  
Bm Em  
and i raced my blood up to the crest  
Bm Em  
i held my breath at the speed of light  
Em A  
scenery goes rushing by  
G D  
can t wait, can t wait til we collide

D Em  
years flew by and i caught the door  
Em D  
once or twice i thought to take it  
D Em  
somedays it s hard to be alive  
Em D

up is the only way of giving
