

**Makers**

**Rocky Votolato**

Artist: Rocky Votolato

Song: Makers

Tabbed by: SilverTab

Tuning: Half-step down (EbAbDbGbBbEb)

This is how he plays it live... No need for a capo, just tune your guitar half-step down..

The very first 2 single notes are:

```
eb|-----|
Bb|-----|
Gb|-----2---|
Db|--4-----|
Ab|-----|
Eb|-----|
```

After that, it s pretty much all open chords except the following 3 chords (which are basically just the power chords equivalent and makes it more convenient to play the little run down)

```
D1 : x577xx
C#1: x466xx
G1 : 355433
```

Verse:

```
          D
Death keeps calling me
          G
she s gonna set me free
          A                               D
no more sunshine sidewalk streets or misery
```

```
          D
Like she did for you
          G
Oh Allen how you suffered
          A                               D
lower east-side apartment we stayed up late
```

Chorus:

```
D1 C#1
```

**Bm** G1 D (D1 /  
 C#1)  
 the bones inside your mind were all broken  
**Bm** G1 D A  
 and the keys that opened any answers were all stolen  
**Bm** G1 D A  
 filling and refilling up the glass with makers  
**Bm** A G Em A  
 we both agreed The Final Moment  
**Bm** A G Em A  
 the sweetest remedy to ever be delivered  
**Bm** A G Em G  
 A D  
 heaven or heavenless we re all headed for the same sweet darkness  
 D A  
 (woo hoo hooo...)

That s pretty much it! From there just repeat the verse and the chorus and enjoy!!!!
