Missing You
Rod Stewart
(F# B C#)
(I ain t missing you, missing you....)
F#
                              в9
Every time I think of you, I always catch my breath
And I m still standing here, and you re miles away
And I m wonderin why you left
                 D#m
                                              в9
And there s a storm that s raging through my frozen heart tonight
                                            в9
I hear your name in certain circles, and it always makes me smile
I spend my time thinkin about you, and it s almost driving me wild
                    D#m
                                                 в9
And there s a heart that s breaking down this long distance line tonight
                F#
                                              в9
                                                     C#9
I ain t missing you at all since you ve been gone away
                                     в9
I ain t missing you, no matter what I might say
             F#
                                           В9
                                                                  C#9
There s a message in the wire, and I m sending you this signal tonight
You don t know how desperate I ve become
                                  C#9
And it looks like I m losing this fight
                                                                  C#9
             F#
                                           B9
In your world I have no meaning, though I m trying hard to understand
                                                 в9
                    D#m
And it s my heart that s breaking down this long distance line tonight
                F#
                                              в9
                                                    C#9
I ain t missing you at all since you ve been gone away
I ain t missing you, No matter what my friend s missing
And there s a message that I m sending out,
Like a telegraph to your soul
And if I can t bridge this distance,
```

I ain t missing you

Missing you...
