Listen to the album to get the rhythm, or check youtube for a solo acoustic video which make it clearer.

Intro: **G Am Em C** x 2

G **Am**
Beneath the skyline burning bright
Em **C**
With neon signs and old debris
G **Am**
Punch drunk and looking for a fight
Em **C**
Step out young Jack and sweet Marie
G **Am**
Chasing cars like shooting stars
Em **C**
In search of some infinity
G **Am** **Em** **C**
 Turn on your love

They stumbled in and out the park
and tried to find a cheap hotel
Badly blinded by the dark
Find sleep inside some kind of well
He says these moments I would buy

She says what makes you think I'd sell
Turn on your love

Chorus:

D **Em** **C** **G**
And the days will pass like falling rain
D **Em** **C** **G**
And the tide will turn both feeling strange
D **Em** **C** **G**
Every face will start to look the same
F **D**
Only bones of trust remain
F **C** **G**
In the end we burn like flames

Same chords throughout the song. I'm not entirely sure about some of the lyrics, so correct me if I've misheard any of them. Enjoy.
