

If Looks Could Kill
Rodney Crowell

If Looks Could Kill

Intro: **D# F**

Bb **D#** **Bb**
If today weren't just like any day perhaps I'd try
D# **F**
To shed this worn out skin so thick and learn to fly
D# **F** **Bb**
But I came home to face your ice and steel
D# **Bb** **D#** **Bb**
If looks could kill I would be gone today

Bb **D#** **Bb**
There's a fire that's burning in your eyes not in your heart
D# **F**
I can fan the flames but I can't make a spark
D# **F** **Bb**
And I don't like the way I make you feel
D# **Bb** **D#** **Bb**
If looks could kill I would be long since gone

D# **F**
If looks could kill then I'd be pushing up your daisies
D# **F** **F7**
If looks could kill then I would not be going crazy

There's a stool that I've been glued to for so many nights
And a bar to pour my heart out to and make it right
And I don't have to tell myself it's real
If looks could kill my heart would beat no more

Solo +:
If looks could kill then I'd be deep in peaceful slumber
If looks could kill then I would not be going under

There's a gun out in the hallway covered up in dust
That works well enough to turn this heartache into dust
Go on and let your lawyer make a deal
If looks could kill
If looks could kill I would be long since gone
