

**Many A Long And Lonesome Highway**  
**Rodney Crowell**

Many a Long And Lonesome Highway

**E** **B**  
Yes I had a woman love me, I gave her what there was there of me  
**A** **E**  
And it was good as it could be  
**E** **B**  
Then I heard a wild world calling, I saw a lone star falling  
**A** **E**  
Caught a song and set it free

Chorus:

**C#m** **E**  
And many a long and lonesome highway  
**C#m** **B**  
Lies before us as we go  
**A** **C#m**  
And in the end I ll do it my way  
**B** **E**  
Look for me where the four winds blow

I believe in love and danger, I believe that truth is stranger  
I believe that fear is much too strong  
I believe the best will find me when I leave the rest behind me  
Out on the highway I m on my own

Chorus

**F#m** **C#m**  
And every night s a new beginning, every day the world keeps spinning  
**G#m** **B**  
Sometimes it s hard to stand up on my own  
**F#m** **C#m**  
To the east the moon comes showing, to the west thereâ€™s storm clouds growing  
**G#m** **B**  
Though by myself I m not alone no more

My father on his deathbed told me there s really nothing left to hold me  
Though I was there he died alone  
It s gonna take a fast train leaving to shake my world of grieving  
Guess I ll go until it s gone

Chorus (2X)
