

The Best Years Of Our Lives
Rodney Crowell

The Best Years of Our Lives

G D C
When I was young and restless I wasted so much time
G D
Halfway stoned and halfway out of my mind
G D C
Well I don t feel that much different though now I realize
G D G G7
These are the best years of our lives

C G

These are the best years that we re living in

A D

And I know that someday later we re gonna reach the end

Though time stacks up against us the fire inside still thrives
These are the best years of our lives

These are the best years that we re living through
Then I know that someday later you re gonna know that too

There s so much more to living now than the kind of car we drive
These are the best years of our live
These are the best years of our live
