Let It Roll

[Verse]

G **Am**
I d like to take this time to thank people who are gathered around me here
C **G**
at least we ve come this far on a really tough road
G **Am**
there are night we sank so low lord it seems hard to imagine
C **G**
you picked me up and helped me carry the load

G **Am**
sometimes I sing to an empty house and some nights I pack em in
C **G**
it s hard to know if I m waiting to lose or losing to win
G **Am**
it takes a lot of good folks to open up doors you gotta knock again and again
C **D**
you gave me what I needed so thank you for believing I think I got one foot in

[Chorus]

G **C** **G** **C**
So here I go one more time giving all I ve got word by word and line by line
G **C** **D** **G**
one more town at a time Loving what I do laying it all on the line
G **Am** **C** **G**
Pack up the gear and it s out on the highway I gotta keep movin I guess I ll see
you around
G **Am**
maybe in some small cafe with my case at my feet on the ground
C **D**
one things for certain one thing I know nothings gonna slow me down
G **C** **G**
I m gonna let it roll gonna lay it down same old song
