

## Breathe

Roger Waters

**D** **G**  
Breathe in the air  
**E** **A**  
Make for the meadow and savour the grass while it lasts  
**D** **G**  
By and by  
**E** **A**  
Shadowy fingers of industry reach for the sky  
**D** **G**  
Brick upon brick, stone upon stone they grow  
**E** **A**  
Choking the atmosphere oh so incredibly slowly  
**D** **G**  
Sulfur and carbon and hydrogen sulphide and lime  
**D** **G**  
Fever corrosion and cover your cities with grime  
**D** **G** **A**  
Something is killing the land before your eyes  
**D**  
And the sunshine  
**G**  
is not to blame  
**D** **G**  
Could be the insane inhumane games we play  
**A** **D**  
Day by day  
  
**D** **G**  
Riddle and fool  
**E** **A**  
Mushrooming home in a crowd, I m alone  
**D** **G**  
Close your eyes lie still  
**E** **A**  
You are a mountain stream and I am a hill  
**D** **G**  
Far, far away  
**E** **A**  
There is a field of blossom and bees and new mown hay  
**D** **G**  
Breathe in the air (x4)
