

## Breathe

Roger Waters

**E** **A**  
Breathe in the air  
**F#** **B**  
Make for the meadow and savour the grass while it lasts  
**E** **A**  
By and by  
**F#** **B**  
Shadowy fingers of industry reach for the sky  
**E** **A**  
Brick upon brick, stone upon stone they grow  
**F#** **B**  
Choking the atmosphere oh so incredibly slowly  
**E** **A**  
Sulfur and carbon and hydrogen sulphide and lime  
**E** **A**  
Fever corrosion and cover your cities with grime  
**E** **A** **B**  
Something is killing the land before your eyes  
**E**  
And the sunshine  
**A**  
is not to blame  
**E** **A**  
Could be the insane inhumane games we play  
**B** **E**  
Day by day  
  
**E** **A**  
Riddle and fool  
**F#** **B**  
Mushrooming home in a crowd, I m alone  
**E** **A**  
Close your eyes lie still  
**F#** **B**  
You are a mountain stream and I am a hill  
**E** **A**  
Far, far away  
**F#** **B**  
There is a field of blossom and bees and new mown hay  
**E** **A**  
Breathe in the air (x4)
