[Intro] **C# B F#**
       C# G#m A#m
       C# B F#

C#   **G#m**
   Lie with me now
A#m
    Under lemon tree skies
  C#   **B**
Show me the shy, slow smile you keep hidden by warm brown eyes
 F#
Catch the sweet hover of lips just barely apart
      C#   **G#m**
And wonder at loves sweet ache
                          A#m
And the wild beat of my heart
C#   **B**   **F#**
Oh, rhapsody tearing me apart
        C#   **G#m**
And I dreamed I was saying goodbye to my child
         A#m   **C#**
She was taking a last look at the sea
 B
Wading through dreams, up to our knees in warm ocean swells

While bathing belles, soft beneath
 F#
Hard bitten shells punch their iPhones

Erasing the numbers of radon done lovers
                  C#
And search the horizon
     G#m
And you ll find my child

Down by the shore
 A#m
Digging a mound for a chain or a bone
 C#   **B**
Searching the sand for a relic washed up by the sea
              F#
