be and bring me home

Her jewellery drops, all it s grime.

Fed up crazy fanatics loose their crazy rhyme.

We are ahead of time

all I can hear now is your chime.

You find out that you have what is spoken for.

You find out that you have no broken door

Nothing is known of where to go back for more

Like the waves are sparkling,

just like the diamond shores.

be and...

you have your side it s yours

except for us if it s your pleasure

you can tap on my mind

you can play cat jive
someone was missing love
And now this someone is going home,
I knew that you were missing but I couldn t tell how
and I m missing you and me receives,
we are not alone

be and...

They told me you were dirty,
I don t see no dirt.
They told me you were strong,
funny I don t feel hurt.
They said you were a criminal.
No one sees no crime.
They said I might need their dirty prisons.
But I love the way you don t give me time.

be and ...

I don t care what they tell me,
I don t care what they say.
I don t care what they think,
I ll love my family always.
Special and magical music,
those are feelings from one to another,
no foot moves through you trying for to kick,
I won t jump on you though,
we are all rubber

be and...
