**B**                    **G#m**            **E**                    **F#**  
If you come and see me that would really free me

Tell me what that trip you took has done for you

Come and be my lover I think you discover

**B**                    **E**                    **F#**                    **B**  
That I m like a chiffer down the right track now

**B**                    **G#m**            **E**                    **F#**  
Got my consolation by anticipation

Keeps me smiling every time I think you re away

I see morning showers while away my hours

(repeat x3)
