Spend the evenings in your dark blue cotton sheets

Then the answer came on that late summer breeze

And the headlights on the highway cannot help me understand

Whatever it is you need

I pray I am

Em G D Em

With my fingertips I trace on your bare skin

All of the things I d like to say but cannot speak

Em G

You mean everything

There re not quite words enough to tell you  
All the things that you ve become for me

And the headlights on the highway cannot help me understand  
Whatever it is you need  
I pray I am

Bridge-  
And I don t need no secrets  
I give up on lies  
If it s gonna rain I d rather know then be caught blind

And the headlights on the highway cannot help me understand  
Whatever it is you need  
I pray I am (x2)
