No Help At All by Ron Sexsmith
Album: Long Player Late Bloomer (2012)

Intro - **F**   **Gm**   **F**   **Gm**   **C**

            F
I ve been burning
                Gm
The candle at both ends
        F
And running myself more ragged
        Gm   **C**   **Am**
Than a Raggedy Ann
                            Gm
I couldn t read the writing
          F
On the wall
Dm   **Dm7/C**   **G**
Until I hit that wall
              Gm   **F**   **Gm**
And that was no help at all

I ve been learning
All my lessons the hard way
And nursing the exit wound
From a near fatal mistake
You could say it was time
For a wake up call
I never did get that call
                Gm   **F**
There was no help at all

Dm
Won t somebody tell me
            Gm
What these eyes are for
                  F
I can t see a light any more
                  A
I can t see a light any more
        Dm
It gets lonesome in that valley
                Gm
Well, you re on your own
                F
You ve got to go it alone
                A   **Dm**   **Dm7/C** **G**   **Gm**
You ve got to go it alone

(repeat intro)

I ve been burning
All my bridges and contacts
And running the risk of losing
All you can never get back
If I m shooting myself in the foot
I ll crawl
I m willing to take that fall
```
              Gm          F
```
I ll do it with no help at all
```
  Dm          Dm7/C    G
```
I never did get that call
```
              Gm          F
```
Man, there was no help at all
```
           Gm        F
```
There was no help at all
```
           Gm        F
```
There was no help at all

No help at all
There was no, no help at all
I ve been burning
The candle at both ends
No help at all
There was no one around
No help at all
