

Baby I Love You
Ronnettes

The Ronettes - Baby I Love you

Tabbed by Bruce Wilmott

Original key seems to be in Eb. I tabbed it in D for simplicity.

A
woa-oh, woa-oh oh oh
D Em A
have I ever told you
D Em A
how good it feels to hold you
D Em A D Em A
it isn't easy to explain
D
and though I'm really trying
G Gm
I think I may start crying
D (Bm) Em
my heart can't wait another day
A D
when you kiss me I've just got to say

CHORUS

D G A
(baby I love you)
come on baby
D G A
(baby I love you)
oh-ee baby
D
baby I
G A D
Baby I love only you
A
woa-oh, woa-oh oh oh

Second verse is the same as the first. The (Bm) is hinted at but is optional.
