This is my interpretation of the song and is what I hear. Since

U-G doesn't always include the correct chord voicings, I have included all of them in this transcription. Please feel free to experiment with your own chord voicings.

Although I have not seen an official chord chart for this song, you may also want to experiment with extending the Bbm/C# in the final verse to a BbmMaj7, or BbmM7. I don't believe this is the actual chord used in the song, but it does give a nice variation on the recorded version. The fingering for that chord is below.

BbmMaj7 x13221
