

Ophelia

Roo Panes

This is my first Tab and if you feel like it could be improved please edit it or give sugestions :)

-First, tune your lower E string down to D and keep it open throughout the song, there are a few Bar chords that he uses which I have provided below and when to play them (they may just be variations of the chords provided as one of them is a traditional A chord) His picking pattern is a little hard to pick up, but lightly strumming the strings with your fingers does the job nicely, hope you guys have fun playing!

[Here are the Chords:]

```
e|--2---3---3--|
B|--3---3---3--|
G|--2---2---2--|
D|--0---0---2--|
A|--0---2---0--|
D|--0---0---0--|
```

D B A

-In the chorus as he sings it a second time, he does 3 different chords before going back to the d chord which are as follows:

```
e|-----3-----2-----0-----x-----2|
B|-----3-----3-----2-----0-----3|
G|-----2-----4-----2-----0-----2|
D|-----0-----4-----2-----4-----0|
A|-----2-----2-----0-----5-----0|
D|-----0-----0-----0-----5-----0|
```

When I see you I see home There s a world that needs what you ve got to give
