Drop-D Tuning

* Well I wasn't going to tab this, but I figured that somebody had to cause I thought that people might want to learn this song. It's great, and ummm.... easy! There's one small part w/ another guitar; a lead that Taylor plays! You may leave it out if it's just you, but if you people are playing you add it in.

Intro- this is the piano part but I think Taylor plays this sometimes.
