E
You could give me a broad smile
And there is nothing else to add
C#m   A
Today I live without emptiness
Now everything has sense

E
If my patience far away goes
I can hear Stay a little longer
C#m   A
The deep echo that your voice makes
                        E   B   A
Gives more reasons to be, so well

E   B
Everything I have
          D   A
To you I give, no matter what

(A5   B5   C5   G5   F5   E5)

E   B
Everything you have
              D
I want to be mine
          A
No matter what

(A   B   B   A   E/G#   A   B)

```
E            A                 B
And this way I live happily
                 E/G#
I have only changed the way I see
E                 A          B
And this little has become a lot to me
                        E
I can t never forget, I can t
   A                 B
Where I came from and who I am
      E/G#
It s that I returned
E                    A                     B
I learned on the road the price that I paid
                          C#m
For everything not lived

A       E        B
Year... Year

E             B
Everything I have
          D                    A
To you I give, no matter what
   A5   B5   C5   G5   F5   E5
E             B
Everything you have

No matter what
