What We Really Want

Roseanne Cash

**Em** **G** **Cadd9**  
We tried to make ourselves pay for something we ve never done

**Em** **G** **Cadd9**  
We threw the best parts of life away on street talk strangers and drugs

**D** **Em** **D** **Cadd9**  
What we really want is love what we really need is love

**Em** **G** **Cadd9**  
I wanna call out your name I wanna hold out my hand

**Em** **G** **Cadd9**  
A woman silent in the mirror tonight wants to talk to your mirror man

**D** **Em** **D** **Cadd9**  
And what they really want is love and what they really need is love

**Em** **G** **Cadd9**  
We are ships in the night the water is deep in between

**Em** **G** **Cadd9**  
There is reason and we can t find the light so we sail off into our dreams

**D** **Em** **D** **Cadd9**  
And what we really dream is love and what we really need is love

**D** **Cadd9** **D**  
What we want is love what we need is love

**Em** **G** **Cadd9**  
We tried to make it feel right in someone else s world

**Em** **G**  
We sat and looked out my window last night

**Cadd9**  
And knew that things had changed with this girl

**D** **Em** **D** **Cadd9**  
Cause what I really found was love cause what we really need is love

**D** **Em** **D** **Cadd9**  
What we really want is love what we really need is love

**D** **Cadd9** **D**  
What we want is love what we need is love
