Waking skies at sunrise, evry sunset too,  
C#9      Bbm7  B°      Bb7 Eb7  G#9      C#          G#7  
Seems to be bringing me memories of you.

Here and there, ev rywhere, scenes that we once knew,

And they all just recall memories of you.

How I wish I could forget those happy yesteryears;  
  Bbm          Bbm7/E  Eb7(9)  Eb7      G#7      Ebm7  G#7  
That have left a rosary of tears.  
C#          E°  Ebm      Ebdim      C#          Bbm7(5-)  Eb7  
Your face beams in my dreams, in spite of all I do,  
  C#          Ebm7  B°      Bb7  Eb7          G#9      C#  
And ev rything seems to bring memories of you.
