**Em#65279; C G D**  
And Iâ€™m a fool for waiting so long to let you know

**Em C G**  
Come around come around come around come around to me  
**D Em C G D**  
Thereâ€™s something in between you and I come around come around to me  
**Em C G D Em C G**  
You feel like breathing, Come around come around come around come around to me

Like sunlight, wonâ€™t you come and lay a ray down? Youâ€™re the one.  
I could run, I could run for the life of me.  
But where would that get me? Where would that lead?

And Iâ€™m a fool for waiting so long

Come around come around come around come around to me  
Thereâ€™s something in between you and I come around come around to me  
You feel like breathing, Come around come around come around come around to me

Canâ€™t you see? Youâ€™re my life line

Come around come around come around come around to me  
Thereâ€™s something in between you and I come around come around to me  
You feel like breathing, Come around come around come around come around to me
