ROX - Precious Moments (Chords)

( Capo on 1st fret )

VERSE:

**C**

I believe that the time is right

**Am**

Spiritually we re one for life

**Dm**

It brings joy I can t explain

**G**

You see through me  
When I try to hide behind my pride  
You re the face that I see  
When the past would haunt me till I cry  
But true love shadow the pain

CHORUS:

**C**

Precious moments

**Am**

Hold me now

**Dm**

I ll never let you go

**G**

I ll never let you go

VERSE:

A thousand times you stole my heart  
A true sign this was planned from the start  
Hope God it works  
in funny ways (Don t you know that I love you  
Don t you know, don t you know that I love you)

Put a smile on my face  
Cause I know the best is yet to come  
And I remember the place  
When you first told me I was the one (yes you did)

And I know that s no mistake

CHORUS:

Precious moments  
Hold me now  
I ll never let you go  
I ll never let you go

BRIDGE:

**E** **Am**  
And uh... this love gets deeper as it goes  
**E**  
It saved me from the walk alone  
**Am**  
It gave me hope  
  
Love set me free  
**F**  
But if our melody is the same  
  
Then we both will always know  
**G**  
That the feeling will remain

VERSE:

I believe, yes I believe, I believe  
I ll never let you go  
I ll never let, I ll never let you go

CHORUS:

Precious moments  
Hold me now  
I ll never let you go  
I ll never let you go  
  
I ll never ever let you go  
Never ever let you go  
Oh no I won t, I never will  
Oh no I won t, I never will  
I ll never ever let you go  
Never ever let you go  
Oh no
