

Crush On You
Roxette

B

I m a zombie in the moonlight
I m sleepin when it s daylight
I really should be alright
But I m feelin kinda uptight
I m messin with a neighbour
Who killed my amp and fender
He looked so sweet and tender
It s hard to tell his gender
Got coffee on the paper
My dog s an alligator
I want you now and later

G Bm

B

I m rentin the wrong movie
I m laughin at the wrong guy
I m drivin on the wrong side
My brain is gettin cock-eyed
The flag is never chequered
Can t find my **F**-beat records
God, give a little lovin
The money s in the oven
Got dead flies in my scotch with ice
My talents always vapourise
I want your bird of paradise

I m sweatin in the winter

No middle in the centre

No colours in the printer

No treatment in the pharmacy

No lessons learned from history

No future in the factory

No meaning in the poetry

No changin in the weather

No Elvis in the leather

I want you now or never
