I once new a girl I can t remember her name
 But I remember her face cos her sister looked the same.

They both left school, but they couldn t find a job
 So they said farewell and stole a small town car.

```

C           A#m           G
As they were riding by the beach some summer night
    C     A#m           G                                 F
the radio shouted out one of those songs that might just change your life

```

It went like this:

```

D           G           A
Checkin  in checkin  out
D           G           A           D           Bm
Making love I like watching all your fireworks
                G           A           E
I like it when I light those stars in your eyes
                G           C           D
Just like fireworks in the sky

```

Yes it did.

```

Throwing some poems to the ports and docks
                                D           C           G
They were sleeping outdoors puching all their luck

They sent me a letter full of pills and thrills
                                D           C
Then they both got rich and moved to Hollywood Hills.

```

```

C           A#m           G
Yea they made lots of money playing folk guitar
C           A#m           G                                 F
Cos everywhere the boys went crazy just to hear these words of art:

```
