Wash my pain away,

Half a woman, half a shadow...

Daylight is breaking again.

I hide in the dark. I m watching the rain.

You re out of touch. You re out of reach.
A G
What can I say, I never wanted it this way.

D
Love sleeps all alone.
Gsus2
The cold telephone, I know the heart.
Csus2 Em
Yes, I know the kind. The kisses of fire,
Asus4 G D/F#
turning to grey. I never wanted it this way.
G A
I always wanted you to stay.

G/B Csus2 D G
Cause I m half a woman, half a shadow.

Love always change with the trees,
the spring and the leaves, the waves on the sea.
Wilder than light the wind in your eyes
led me astray. I never wanted it this way.
I always wanted you to stay.

Oh I need you, yes I need you. Give me a reason to believe.
