You re out of touch. You re out of reach.

What can I say, I never wanted it this way.

Love sleeps all alone.
 Gsus2
The cold telephone, I know the heart.
 Csus2 Em
Yes, I know the kind. The kisses of fire,

turning to grey. I never wanted it this way.

I always wanted you to stay.

 G/B Csus2 D G
Cause I m half a woman, half a shadow.

Love always change with the trees,
the spring and the leaves, the waves on the sea.
Wilder than light the wind in your eyes
led me astray. I never wanted it this way.
I always wanted you to stay.

Oh I need you, yes I need you. Give me a reason to believe.
