

I Could Never Give You Up
Roxette

Em C G D

I ve been hiding, lost in the love of another.

I ve followed the moon and a song

and I thought it would take me forever

to find a place where I belong.

I watch a rainbow rise. I give you all I ve got.

I could never give you up, the way you make my love shine.

I could never give you up, the way you make true love shine.

I believe you when you say you don t want to be lonely.
I ll carry your heart like a bridge
when you need all the time you can find
to get the hurt out of your mind.

I ll watch the rain go by and give you all I ve got.

Cause I could never give you up...

Chorus after intrumental: F#m D A E (repeat and fade)
