[Intro] **F#   C#/F   B   C#**
         F#   C#/F   B   C#

[Primeira Parte]

```
  E
   Everywhere I look
              G#m
I see her smile
                    A
 Her absent-minded eyes
      F#m
 And she has kept me wondering
          E
For so long
                         B
 How this thing could go wrong

     E
 It seems to me that
               G#m
We are both the same
                    A
 Playing the same game
        F#m
 But as darkness falls this
                   E
True love falls apart
                      C#
 Into a riddle of her heart
```

 [Refrão]

```
         F#          F#/F
 She s so vulnerable
       B          C#
Like china in my hands
         F#          F#/F
 She s so vulnerable
   B              C#
And I don t understand
 F#               F#/F            B
 I could never hurt the one I love
                  C#
 She s all I ve got
               F#        C#
 But she s so vulnerable
```

```
           F#
 Oh so vulnerable

 [Segunda Parte]

   E
 Days like these no one
            E/D#
Should be alone
                           A
 No heart should hide away
      F#m
 Her touch is gently
                  E
Conquering my mind
                          B
 There s nothing words can say
        E                         E/D#
She s coloured all the secrets of my soul
                       A
I ve whispered all my dreams
             F#m
But just as nighttime falls
              E
This vision falls apart
                     C#
Into a riddle of her heart

 [Refrão]

          F#         F#/F
 She s so vulnerable
       B           C#
Like china in my hands
          F#         F#/F
 She s so vulnerable
   B                 C#
And I don t understand
 F#               F#/F              B
 I could never hurt the one I love
                   C#
 She s all I ve got
                F#         C#
 But she s so vulnerable
        F#         C#
 Oh so vulnerable

               G#        C#
 But she s so vulnerable
