Big As I Can Dream

**D#**      **G#**                      **Bb7**                      **D#**  
I know they don t think that I ll amount to much  
                         **G#**                      **Bb7**                      **D#**  
But your love has given me the magic touch  
                         **Cm**                      **Gm**                      **Bb**  
Just put your faith in me and strange as it may seem  
**G#**                      **D#**  
I will build a dream for you  
**G#**      **Bb7**      **D#**  
Big as I can dream

I know that they want the best things for you  
That is just what I have planned If they only knew.  
There s no mountain that s too high I can ford any stream  
For your love I can be  
Big as I can dream.

There s no mountain that s too high...
