Careless Heart
Roy Orbison

```
A                     D
I had somebody, somebody who loved me
E                 A
Someone so good to me
A                     D
You were my angel, you were my heaven
E                           A
But I was too blind to see

F#              D
I let you slip away
E               A
I guess I never knew
F#        D
I had the world with you
        Bm                      D
I?d be there, still be there in your arms

Chorus:
Dm            A                           D
If not for my careless heart you?d still be loving me
Dm            A                       C#m   E
If not for my careless heart you?d still be mine
  A                     F#m
I wouldn?t have this hurt inside
  D                     Dm
I wouldn?t have these tears to cry
              A                       E
If not for my careless heart, if not for my careless heart

I had my chances, I took advantage
I took it all too far
So now you?re gone and I?m all alone
Alone with my lonely heart

I let it fall apart
I didn?t care enough
I lost your precious love
You?d be here, you?d be here in my arms

Chorus

Dm                   A7
I?d be loving you, I?d be holding you
Dm            E
I?d be loving you
              A
```

If not for my careless heart

Solo and Chorus
