

**In Dreams**

**Roy Orbison**

**C** **Am**  
A candy colored clown they call the sandman  
**Dm** **G13**  
Tiptoes to my room everynight  
**C** **Am**  
Just to sprinkle stardust and to whisper  
**F** **G7** **C**  
Go to sleep, everything is all right

**C**  
I close my eyes  
**Dm**  
Then I drift away  
**G7**  
Into the magic night  
**C**  
I softly say

**C**  
A silent prayer  
**Dm**  
Like dreamers do  
**G7**  
Then I fall asleep to dream  
**C**  
My dreams of you

**C** **G7**  
In dreams I walk with you  
**F** **G7** **C**  
In dreams I talk to you  
(**C**)  
In dreams you're mine  
**D7**  
All of the time, we're  
**C Dm G C Dm G7**  
Together in dreams, in dreams

**C Fm C**  
But just before the dawn  
**C Fm C**  
I awake and find you're gone  
**C** **Dm**  
I can't help it I can't help it if I cry  
**G7** **C**  
I remember that you said goodbye

**C F G7**

It's too bad that all these things

**C F G7**

Can only happen in my dreams

**C D7**

Only in dreams

**Dm7 G7 C**

In beautiful dreams
