

So Young
Roy Orbison

So Young

C **Dm** **G** **Em** **Dm**

Dawn comes up so young,

C **Dm** **G** **Em** **Dm**

Dreams begin so young

E **A7** **D7**
And if you live just for today the day may soon be done

G7 **C**
But there s a place where dreams always stay so young.

C
A place to hear the sun go down and fade away
To see the wind just run away with yesterday

F **D**
Anyplace for those who care Zabriskie Point is anywhere

C **F** **C** **F** **C** **A**
Time runs out so fast on love too good to last, so young

D
A time to look forever s there or never found
To touch the sky and really feel the world go round

G **D** **Em**
To live to love to laugh to cry to be alone

D **G** **D** **A** **D** **A**
Young, so young love was meant to be wild and free, so young

D **G** **D**
Young, so young, love is space in life

A
A place in time a state of mind too late I find

D
When tomorrow s gone and love is lost so young

D **G** **D** **A** **D** **A**
Young, so young love was meant to be wild and free, so young
