

You May Feel Me Crying
Roy Orbison

F

When we make love you know we're making love

Am C

To everyone we've ever made love to

F

So when you take him down inside

Bb Am C

Just know I'm there with you

Chorus:

Dm C F

And you may feel me crying

Dm C

And oh, I hope you do

Gm Dm C

I'm out there somewhere all alone with memories of you

Dm C F

And you may feel me crying

Dm C

While you're reaching for more

Bb Am Gm C

I just hope someday I see you standing at my door

F

It's something I live for

They'll fill you up, I know, with shining dreams

It'll touch your heart, because you thrill them so

But there's a place they'll never touch

Just you and I can know

Chorus

Bb Am C

There are stronger men than me

Bb Am C

And they'll take you on a mountain

Bb

And give you all you see

C Bb

And you'll do what they desire

Gm C

You were born to see how long your hand can stand the fire

Chorus
