This room barely alive

C#...

From all the ghosts we have

I witness in your eyes

We may have nothing left

What is the meaning of?

The lies we tell as truth

One thing Iâ€™m certain of

Is that Iâ€™ve little more to lose

Well faith means little if

We have no where to stand

This wound is deeper now

And Iâ€™m a broken man

You held your words. A knife

The weapon armed again

But Iâ€™m not walking from

Our dream it grows as I begin

Giving up. Not giving up. Giving up

I used to feel us so on fire

And now I feel heat for the truth

With every flame of my desire

Iâ€™m not giving up on you

How love can teeter on
The edges of a blade
On either side it waits
The light and darkness play
I am not banking on
A simple twist of fate
Iâ€™m on a holy war
And how the battle ends today
