I m a singer-songwriter, and I perform this song fairly regularly. When I play it, it s usually in a simple arrangement with acoustic guitar or guitar+ keyboard. I use a simple flatpicking pattern on the first and last verses, play normal rhythm guitar on the 2nd verse and bridge.

I m not quite sure about the bridge, but that should work. Runrig is an amazing band with some incredible songs, and I d encourage you to listen to all of their music! Cheers!
