  As of September 2005 I cannot find this song s chord/tabs using Google
  or some popular guitar chord websites. So I guess this is the first

E   C#m7   F#m9   -   F#m
I ve come back this morning to where I first came alive

G#/D#   G#   C#m   (C#m - B - A#dim)
Here within this terminal where the buses arrive

A#dim   AM7
I was a commuter on the 804

A#dim   B
Worked on a computer on the 19th floor and

```
E                       C#m7                          F#m9   -   F#m
You came down the aisle of the bus and you sat by my side

G#/D#          G#                          C#m                (C#m - B - A#dim)
Shoulder up to shoulder we shared that 9 o clock ride

A#dim                         AM7
Oh my heart was screaming as you left your seat

A#dim                              B
Following your movements I was at your feet and

EM7       C#m7                     F#m                Gm
Oh down into the terminal both of us smiled

G#m    C#m                     F#m     -    G#m     F#m - B
So we entered the terminal just as she smiled

E                       C#m7                          F#m9   -   F#m
Won t you leave out work today - you ask of me then

G#/D#          G#                          C#m                (C#m - B - A#dim)
So I phoned in sick on the way to the home of a friend

A#dim                    AM7
We were all alone from 10 A.M. till three

A#dim                              B
Really thought the fire had gone out of me but

E               C#m7                        F#m9   -   F#m
You awoke the sleep of my life from gray into red

G#/D#          G#                          C#m                (C#m - B - A#dim)
Made the weary wonder of Wall Street rise from the dead

A#dim                              AM7
Could have had the fun of my entire life

A#dim                              B
But I have to get home to the kids and the wife and
```

```
EM7  C#m7                        F#m              Gm
So I left for the terminal where I began

    G#m    C#m                          F#m   -   G#m      F#m - B
Baby no, I wouldn t have left if I d been half a man

E               C#m7                  F#m9      -      F#m
So here I am this morning where love had asked for the dance

G#/D#           G#              C#m                    (C#m - B - A#dim)
Here within this terminal where I passed on a chance

A#dim                          AM7
Lord I ll never find her through I ve truly tried

A#dim                          B
Probably she s found another bus to ride and

E         C#m7              F#m9     -     F#m
I am now about to begin the last of my days

G#/D#           G#              C#m                    (C#m - B - A#dim)
I m within what others would call a terminal face

A#dim                  AM7
I myself can only say it s livin dead

A#dim                          B                    EM7
Ridin to the office with the song in my head that  goes

C#m7                  F#m        Gm           G#m
La da da da da da da da da da  and you know it grows

C#m                F#m  -  G#m   F#m - B
La da da da da da da da da da

EM7   C#m7                 F#m         Gm  G#m
Ohh   La da da da da da da da da da da       Ohh

C#m                F#m  -  G#m   F#m - B
La da da da da da da da da da

EM7         C#m7               F#m         Gm
Ohh   La da da da da da da da da da da da da   (Fade Out)
