

Suddenly

Russ Lee

G **C** **Cadd9**
Kneeling on a hill, I watch and pray
G **C** **Cadd9**
Long ago you told me, it would all turn out this way
G **C** **Cadd9**
The world is spinning fast, the end is near
G **C** **Cadd9**
Love and understanding like time, just disappear
D **G**
Those that live in you are not afraid
C **D**
Longing for the moment, waiting for the day

E **Bm7**
When suddenly, above the eastern sky,
A
You will come without a warning
Asus **Em**
And bring me to your side
E **D**
Suddenly, in the twinkling of an eye
Bm7 **Asus**
Like an angel I will fly,
Bm7 **Asus**
To my everlasting life

Suddenly

G **C** **Cadd9**
Though we re living in the final days
G **C** **Cadd9**
Hearts are growing cold, as good men fall away
G **C** **Cadd9**
You told us in your Word what we should do
G **C**
To set our hearts on things above,
Cadd9
And keep our eyes on you
D **G**
Cause those who look to you are not afraid,
C **D**
We re longing for the moment, we re living for the day
